Document Guide

The Registration and Title Systems (RTS) Release Notes have the following purposes:

- Prepare RTS users for upcoming system changes.
- Provide a short-term reference tool for the period after a release when changes are still new to users.
- Serve as a historical reference regarding the technical changes made to TxDMV applications.

In each section of this document, you will find an overview of the RTS change and, in most cases, screen shots to help familiarize you with the new features and/or changes. The following icons highlight sub-sections of the release notes that might be of particular interest to RTS users.

RTS Change – New RTS feature, correction or modification included in the release.

How To – Provides basic steps for using the RTS change item.

TAC Office Considerations – This section includes important points to consider when determining how to implement the new RTS change, reminders, and useful tips.

Release at A Glance

This document describes new features, enhancements, and defect corrections included in RTS 7.4.0. The visible enhancements in this release include:

- ◆ National Motor Vehicle Title Information System (**NMVTIS**)
- ◆ Certified Motor Vehicle Records for Salvage Yards
- ◆ Toll Scofflaw
- ◆ Disable Subcontractor Renewal

The RTS 7.4.0 statewide release date is May 12, 2014.

Important Reminders

In this RTS release, there are several things you need to address before and after Go Live on May 12:

- ◆ Notify your DTA dealers that they must be on DTA software version 7.2.0 or later in order for you to process transactions their transaction through RTS POS beginning May 12.
- ◆ RTS 7.4.0 includes three NMVTIS surrendered title information fields that are a hard stop as of May 12. The county will need to enter those fields to complete the transaction for any dealers who have not updated to RTS 7.4.0, and have title transactions with out-of-state or foreign evidence ownership documents.
 - ◆  Hint: Work through any backlog of DTA transactions you have leading up to May 12 in order to minimize data entry of the required NMVTIS fields.
- ◆ The three ID fields are also required; however, they will not be a hard stop in RTS until July 1, 2014.
 - This will allow DTA dealers ample time to submit transactions processed prior to May 12, and obtain the required software upgrade. It will also allow county offices who process DTA transactions to work through any backlog.
 - Effective July 1, the three ID fields will become hard stops in RTS. DTA transactions must be on version RTS 7.4.0 in order to be processed through RTS POS beginning July 1. The ID fields will affect all DTA transactions. At that point, if any of the six new fields are empty, you should reject those transactions back to the DTA dealers.

Overview

NMVTIS assists and provides benefits to states, particularly state motor vehicle titling information agencies. The purpose of NMVTIS is to prevent stolen/cloned vehicles, “washed” value limiting brands and the use of fraudulent titles.

RTS now captures the surrendered ownership evidence information. If the vehicle was last titled out-of-state, RTS will prompt the capture of the previous title information (Jurisdiction, Title Number, and Issue Date). Prior to issuing a Texas title to the applicant, the title records are verified using the title history and brand history obtained from NMVTIS.

Resource Link: NMVTIS Guide

Resource Link: NMVTIS Guide

Detailed policies and procedures, as well as title samples for the other 49 U.S. States and the District of Columbia can be found in the NMVTIS Guide located on the TAC Hub.

NMVTIS Inquiry

Title transactions processed through RTS Point-of-Sale are submitted to NMVTIS the following day for inquiry. Those inquiry results are received the following morning and delivered to each county’s network printer (the morning following the 48-hour void period). In some situations, an additional day may be required.

Example: Transactions processed in RTS on Monday will display on the NMVTIS Inquiry Error Report on Wednesday morning (if an error is present).

Upon inquiry with NMVTIS, if there is a comparison issue that results in a NMVTIS Inquiry Error, a NMVTIS HOLD remark is automatically placed on the record and the transaction is logged on that day’s NMVTIS Inquiry Error Report. (A “brand related error” will also result in a “BRAND HOLD” remark being placed on the record.)

NMVTIS HOLD Remark

On any screen that displays “Remarks”, users will be able to see if a NMVTIS HOLD remark is on a title record. The title record will display the NMVTIS HOLD remark and the date that the hold was applied.

BRAND HOLD DATE Remark

On any screen that displays “Remarks”, users will be able to see if a BRAND HOLD DATE remark is on a title record. If there was a brand related error, the title record will display the BRAND HOLD DATE remark and the date that the hold was applied.

A NMVTIS HOLD is accompanied by a "TITLE REJECTED". When the transaction is processed through the "Correct Title Rejection" event (CTRL-E), both of these remarks are removed. They can also be removed by the TxDMV. When a brand error occurs, a NMVTIS HOLD and BRAND HOLD DATE will both appear and will be accompanied by the TITLE REJECTED remark. Upon processing the transaction through the "Correct Title Rejection" event (CTRL-E), the NMVTIS HOLD and TITLE REJECTED remarks will be removed; however, the "Correct Title Rejection" event will not clear the BRAND HOLD DATE remark. The BRAND HOLD DATE remark will require special processing by the TxDMV to remove the remark and issue the title.

NMVTIS Inquiry Error Report

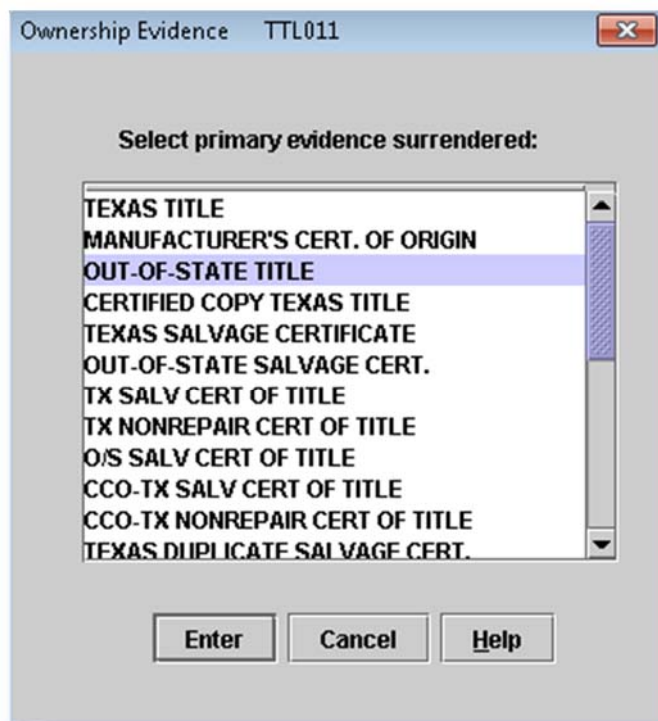

When an error is identified as a result of a NMVTIS inquiry, the transaction is logged on the processing county's NMVTIS Inquiry Error Report.

...END OF REPORT...

NOTE: A NMVTIS Inquiry Error Report is generated daily and printed to each county's RTS Network Printer (Workstation 100). This report will generate even if the report contains no errors. This is done to ensure the county knows their transactions for a given day have been processed through NMVTIS.

Ownership Evidence Changes

NOTE: No changes were made to the Ownership Evidence (TTL011) screen.

The Ownership Evidence Surrendered TTL017 screen will display when the following are selected on the Ownership Evidence TTL011 screen.

- ◆ Out-of-State Title
- ◆ Out-of-State Salvage Certificate (Out-of State Salvage Cert.)
- ◆ Out-of-State Salvage Certificate of Title (O/S Salv Cert of Title)
- ◆ Foreign Evidence
- ◆ Government Bill of Sale
- ◆ Heirship Form

Ownership Evidence Surrendered TTL017

OUT-OF-STATE TITLE

Title No:

Issue Date:

State/Cntry:

Enter Cancel Reset Bypass

Depending on which ownership evidence type is selected, the “Title Number” or “Issue Date” fields may or may not be mandatory. The “State/Country” field is mandatory in all cases.

When all mandatory fields on the TTL017 screen have information entered for a given ownership evidence type, the “Enter” button will be enabled.

Out-of-State:

When any of the Out-of-State title types are selected, the following options appear in the Jurisdiction field drop down box.

- ◆ List of U.S. States (except Texas)
- ◆ District of Columbia

The title number and the issue date are mandatory for all the out-of-state title types.

Foreign Evidence:

When Foreign Evidence is selected, the following options will appear in the Jurisdiction field drop down box.

- ◆ List of Mexican States
- ◆ List of Canadian Provinces
- ◆ List of U.S. Territorial Possessions
- ◆ “OTHER”

The title number and issue date are optional fields but must be entered if present on the surrendered document.

Government Bill of Sale:

When Government Bill of Sale is selected, the following options appear in the Jurisdiction field drop down box.

- ◆ List of U.S. Government Agencies
- ◆ "OTHER"

NOTE: "OTHER" is selected by default for Government Bill of Sale.

The title number and issue date are optional fields but must be entered if present on the surrendered document.

Heirship Form:

When an Heirship Form is selected, the following options appear in the Jurisdiction field drop down:

- ◆ List of U.S. States (including Texas)
- ◆ District of Columbia
- ◆ List of Mexican States
- ◆ List of Canadian Provinces
- ◆ List of U.S. Territorial Possessions
- ◆ "OTHER"

NOTE: If there is a prior Texas record, the TTL017 screen will appear with the Texas title information pre-populated. If the Texas record is not the surrendered ownership document, clear the Texas information and enter the information from the ownership document that was surrendered to support the transaction. If the Texas information is left and it is not the most recent title issued, errors will result on the NMVTIS Inquiry Error Reports.

The title number and issue date are optional fields but must be entered if present on the surrendered document.

Vehicle Inquiry INQ003 Screen Changes

There are RTS screen changes to the Vehicle Inquiry INQ003 screen. The Previous Title Information box has been added to the Vehicle Inquiry Screen showing the "Jurisdiction, Title Number, Issue Date and VIN".

7.3.0

Vehicle Inquiry Addl Info INQ003

Enter Cancel Help

NOTE: The VIN field under "Previous Title Information" will usually be empty. This field is only populated when a VIN change occurs from one issued title to another issued title. The VIN before the change occurred becomes the "Previous VIN" for the new record. This "Previous VIN" will only carry to the new, or corrected, record and does not carry forward to subsequent transactions.

The "Previous Title Information" box.

Dealer Title Application (DTA) Changes

The following six new fields have been added to the DTA Data Dictionary:

- ◆ Previous Title Number
- ◆ Previous Title Jurisdiction
- ◆ Previous Title Issue Date
- ◆ Id Number
- ◆ Id Type
- ◆ Id State/Country

NOTE: DTA dictionary was provided to the dealers and vendors on January 13, 2014.

Certified/Noncertified Form VTR-275 Inquiry Response

To receive a Certified or Noncertified VTR-275 Inquiry Response, the Form VTR-275 must be completed. The new NMVTIS fields (Title Number, Jurisdiction and Issue Date) will now display on the motor vehicle record.

Certified Motor Vehicle Records for Salvage Yards

The following remarks, when present, have been added or modified to appear on the Registration REG003 and Status Change Record TTL006 screens:

- ◆ The “CMRTR” remark now displays the date when the CMRTR (Certified Metal Recycler Title Receipt) was issued. It appears as follows - CMRTR ISSUED (MM/DD/YYYY). Prior to 7.4.0, the issue date was not present.
- ◆ A new remark “VEHICLE CRUSHED” (MM/DD/YYYY) has been added to indicate that a metal recycler has destroyed (crushed) the vehicle.

The “CMRTR
ISSUED” remark.

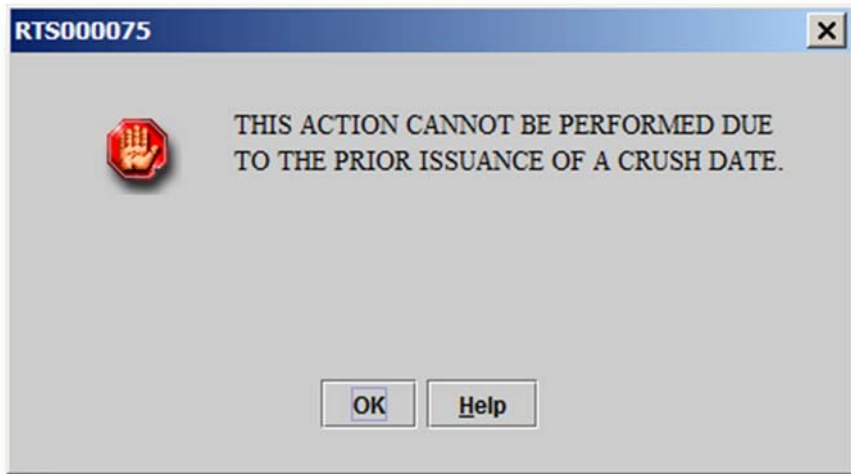

A new indicator has been added on the Status Change Record TTL006 screen. This indicator will be enabled if the record shows that a CMRTR has been issued. When the Crush Date indicator is selected and the transaction is processed, the new remark "VEHICLE CRUSHED" (Crush Date) will subsequently appear on the vehicle record.

TTL006 screen with Crush Date button disabled, due to the VEHICLE CRUSHED remark already placed on the record.

If a clerk tries to process a registration renewal or a title transfer and the “Crush Date” is on the motor vehicle record, an error message will pop up and the registration renewal or title transfer cannot be processed.

A new “Toll Scofflaw” remark will appear on the motor vehicle record when a vehicle has been reported to the TxDMV by a toll authority as having delinquent toll charges. The Toll Scofflaw remark should be handled by the county in the same manner as City, and County Scofflaw remarks (e.g., it is not a hard stop), and the county has the option of either processing or declining the registration renewal per their internal policy. Title transfers on vehicles with a Toll Scofflaw remark are not affected, and can proceed normally. The Toll Scofflaw remark will not carry forward to the new vehicle owner. The Toll Scofflaw remark will appear on the Title Record TTL003, and the Registration REG003 screens.
